INAUGURAL ADDRESS

OF

FRED H. BROWN

MAYOR OF SOMERSWORTH

TO THE CITY COUNCIL

MARCH 16, 1915

INAUGURAL ADDRESS.

Gentlemen of the City Council:

It is with much pride that I once more stand before you to again take up the duties and obligations of the position to which I have been chosen.

The office of Mayor is the most honorable within the gift of the people of Somersworth, and I feel that this is the proper time and place for me to express my grateful acknowledgments to them for a liberal vote of approval, which allows me to be a participant in the directing of municipal affairs during the coming year.

Fidelity to our oath of office must be determined by our endeavors. I think it may be said that the administration of the past year, while not always successful in what it has undertaken, and though subjected to more or less criticism, has gone forward, securely conscious of its position at all times, with a firm knowledge that its intentions were always for the best interests of the citizens. No influence has swerved us toward any policy which tended other than for the good welfare of our city.

HIGHWAYS.

In a former inaugural I suggested that the cost of running the highway department should be curtailed in some degree, but after being in close touch with said department for a year, I am satisfied that any lessening of expenditure along this line is a practical impossibility. With the ever-increasing popularity of automobiles, there is a never-ending demand for better streets and improved roads. During the last year we have extended the macadam on Main street, from Franklin to Summer street. Owing to the extreme width of Main street, such work is very expensive; nevertheless, I recommend a further extension of the macadam at this point, for I believe the improvement made insures the cost accruing, though such expense be large. A number of new sidewalks have been laid, those most notable, perhaps, being that made of concrete on High street and the granolithic walk on Market street. From the location of the

State road, the only part of our city which travellers are given an opportunity to see, in passing, is so much as lies within their vision between West High street and Dover, and for the sake of appearances, if nothing more, I believe it highly necessary that we should have good walks on High street, from West High street, in the direction of Dover, so far as our finances will allow.

I recommend the building of a concrete sidewalk on High street, from Franklin street to Pearl street.

In my opinion, the building of the granolithic walk on Market street was a step in the right direction, and I recommend an extension of our present walk of that sort from the billboard on Market street to the Boston & Maine railroad station.

WATER WORKS.

We find the water works is self-sustaining, paying all running expenses, and interest on bonds, with a larger surplus than at any time since the inception of the plant. Analyses have been made at different periods, and at no time has injurious bacteria of any kind been found. For drinking and domestic purposes the water has been pronounced safe. We are using the chlorine treatment for sterilization, in conjunction with the sand filter bed, and the usual amount of sand has been placed upon the filter bed, keeping it up to the proper standard.

FOREST GLADE CEMETERY.

The management of the affairs of Forest Glade cemetery is entrusted to the board of directors, under whose direction there has been consistent improvement.

The trust fund is increasing steadily, an indication that more and more provision is being made for the assured proper care of the last resting places of relatives and friends.

The greatest need of the cemetery at present is an adequate water supply, since much of the time and labor spent in the care of lots and graves could be better appre-

ciated, and would show to much better advantage, if there was at hand the water supply that such work demands.

Continued care and improvement, so far as the means at hand permit, should be given this department, and the suggestions of the directors in all matters pertaining to such improvements are worthy of our consideration.

SCHOOLS.

This department is entitled to a great deal of praise. There has been criticism in some circles regarding the high cost of carrying on our schools; on the question of expense it may be interesting to know that, laying aside the expense of our teaching force, which amount is approximately four thousand dollars more, we are maintaining our schools at a cost of about two thousand dollars less than was the case in the year 1905.

The public school system is something of which every American citizen should be proud. We have an able superintendent and good teachers who are doing fine work, and personally I feel that our school appropriation should be made larger and not smaller, whenever our finances will permit of such increase.

FIRE DEPARTMENT.

Just how long Somersworth is to be so highly favored in the matter of fires of course no one but the Power above knows; it is a fact that we have been exceedingly fortunate, as regards any serious conflagration, for a number of years. Let us hope that Fate will serve us as kindly in the future as she has in the past.

The fire department remains in about the same condition as it was a year ago; slight repairs have been made on some of our buildings and the usual amount of hose bought, which, with one fire alarm box, comprises our entire outlay.

Last year I recommended a reorganization of the department in the interests of economy, but for some reasons

I have as yet deemed it best not to make the change. I still believe that efficiency can be preserved and the cost of supporting be made less by a reduction in the number of men, and I may feel called upon later to do something along that line.

HEALTH.

The general health of the people in this community has been very good, and the duties of this department so essential to the well-being and life of our citizens have not been particularly arduous.

Those who live in that part of our city known as the "Brick yard district" have been given a much-needed sewer, which I believe will be of great aid in keeping that locality in a healthy condition. The sewer mentioned extends for a distance of some twenty-five hundred feet, which, with all the appurtenances thereto, was laid at a cost of about eighteen hundred dollars.

The duties of the "Garbage man," who has become a necessary adjunct to our health department, have become so great that I recommend an increase in the salary of such official, and I further recommend that our citizens observe "clean-up week" as generally as was the case last year, for I honestly believe that the good health existing in our city during the last ten months was brought about to a great extent through the efforts exerted to make Somersworth a clean city during that most celebrated week.

The most serious problem before this administration is the handling of the city poor.

An expenditure of nearly four thousand three hundred dollars by an overseer of the poor whom I consider careful and efficient gives us a proposition to handle which will require very careful attention and consideration.

While I should never care to have any deserving person go hungry or cold, so long as it lay within my power to allay such suffering, I firmly believe that our pauper account is

an injustice to the tax-payers of this city, as made up at present, and I ask your earnest co-operation toward the cutting down of the expenses now attendant upon this department.

Gentlemen, last year I stated that I would not recommend for all the departments, because I did not feel well enough acquainted with conditions in certain departments to make any reasonable recommendations. After twelve months I can assure you that if we had the money there would be no dearth of recommendations. There is need of a new High school building, more macadam roads, more sidewalks, many extensions to our water system, and innumerable other improvements, which our financial standing will not allow.

Our city is not a wealthy one, and we must expend our money carefully, having in mind at all times the amount of our appropriation set aside for the purpose at hand.

There are many unpleasant things which go with the management of any municipality. In the year to come we shall make mistakes, but by working in harmony, with a firm determination to promote only those things which tend to the good of our city, performing such service with the industry and ability which I know lies within us, even though our judgment may not always have been of the best, I am satisfied that when others come to fill our place, we shall step down and out, taking with us the appreciation and respect of our fellow-citizens.

RESOLUTIONS.

In Favor of Transferring from any Department That May Have an Excess of Appropriation.

Resolved: That the Committee on Finance be and hereby are authorized to transfer from any department that may have an excess of appropriation, or from any money remaining in the Treasury, not otherwise appropriated, and apply to such department as may have expended more than the appropriation therefor.

Passed March 3, 1914.

In Favor of Increasing the Sanitary Officer's Salary from \$180 to \$300 per year.

Resolved: That the Ordinances of the City of Somersworth be amended as follows: Amend Section 1 of Chapter V, by changing "Sanitary Officer, \$180" to "Sanitary Officer, \$300."

Amend Section 5 of Chapter IX, by striking out said section and inserting the following:

Section 5. The Sanitary Officer shall devote at least one-half of his entire time to the performance of the duties imposed upon him by virtue of his office. He shall investigate all complaints relating to nuisances that may be brought to his attention, serve all orders and notices issued by the board, and enforce all rules and regulations or other conditions affecting the health or comfort of the public. He shall secure the abatement within a reasonable time of all nuisances, bury all putrid meat, or dead animals, and attend to fumigation in all cases of diseases, as required by law, including the fumigating of public buildings, without expense to the city. He shall have the same power to make arrests as is by law and ordinance conferred upon the

regular police of the city, in all cases where any person or persons shall violate the laws of the state, city ordinances, orders, rules or regulations relating to the health of the city, and shall wear a badge prescribed by the board. In case he shall be unable to act as the executive officer of the board, through sickness or other good cause, the board may elect a suitable person to act temporarily in his stead, and such person, while so acting, shall possess all the authority and receive the same compensation which the Sanitary Officer would otherwise receive under the provisions of these ordinances. Said Sanitary Officer shall, under the direction of the Board of Health, in the first week in May, commence a systematic house-to-house sanitary inspection, which shall continue until the inspection of the city is completed. He shall secure the abatement, within a reasonable time, of all nuisances found, and shall give such advice and make such recommendations to householders and others as he may deem necessary to secure good sanitary conditions.

Passed March 17, 1914.

In Favor of Borrowing Money in Anticipation of Taxes.

Resolved: That the Committee on Finance be and hereby are authorized and empowered to borrow, in anticipation of taxes, to meet current expenses, such amount and at such times as may be deemed advisable, at the lowest rate of interest obtainable, the sum of all amounts so borrowed not to exceed \$20,000, and that the proper officers of the city be authorized to give the city's note, or notes, therefor.

Passed March 17, 1914.

Somersworth, N. H., May 5, 1914.

To His Honor, the Mayor, and City Council:

Gentlemen: Whereas that part of Wallace street,

east of the Boston and Maine Railroad tracks, is seldom used by the public as a highway, be it therefore resolved, that the same, beginning at a line drawn from the corner of the Great Falls Manufacturing Company's fence to the line of the Strafford-York Gas Company's coal shed bordering onto the railroad, be and hereby is continued to Depot street.

Passed May 5, 1914.

Somersworth, N. H., June 2, 1914.

Be it ordained by the City Council of the City of Somersworth:

That the ordinances of the City of Somersworth be and hereby are amended as follows: Strike out of Chapter 5, Section I, after City Messenger, "\$450," and insert in place thereof, "\$500," so that said Section, as amended, shall read as follows: "City Messenger, \$500."

Passed June 2, 1914.

Somersworth, N. H., June 2, 1914.

Be it ordained by the City Council of the City of Somersworth:

That the ordinances of the City of Somersworth be and hereby are amended as follows: Strike out of Chapter I of Section 5 of the city ordinances, that which refers to the salary of the City Clerk, "\$600," and insert the following to read: "The City Clerk shall receive for his services the sum of \$650 per year, and the fees of his office."

Passed June 2, 1914.

In Favor of a Series of Band Concerts.

Resolved: That the sum of two hundred and fifty dol-

lars be expended from monies not otherwise appropriated for a series of open-air band concerts, to be given under the direction of the Committee on Public Buildings.

Passed June 2, 1914.

CITY OF SOMERSWORTH.

IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED AND FOURTEEN.

An Ordinance Relating to the Regulation of Street Traffic.

Be it ordained by the City Council of the City of Somersworth, as follows:

ARTICLE 1. DEFINITIONS.

Section 1. The word "vehicle" herein shall include horses hitched to vehicles, horses ridden or let, motor vehicles of all kinds, bicycles, tricycles propelled by hand, and everything on wheels or runners except street cars and light carriages for the conveyance of children.

Sec. 2. The word "horse" herein shall include all domestic animals.

Sec. 3. The word "driver" herein shall include the rider or driver of a horse, the rider of wheels, and the operator of a motor vehicle.

ARTICLE 2. VEHICLES IN MOTION.

Section 1. A vehicle except when passing a vehicle ahead shall keep to the right and as near the right curb as possible.

Sec. 2. Vehicles meeting shall pass each other to the right.

Sec. 3. A vehicle overtaking another vehicle shall, in

passing, keep to the left, but it shall not leave the line on the right unless there is a clear way to advance on the left.

Sec. 4. A vehicle turning to the right into another street shall turn the corner as near the curb as practicable.

Sec. 5. A vehicle turning to the left into another street shall pass to the right of and beyond the street's intersection before turning.

Sec. 6. A vehicle crossing from one side of the street to the other shall do so by turning to the left so as to head in the same direction as the traffic on that side of the street and shall not make the turn at a street intersection.

Sec. 7. Slow-moving vehicles shall keep as close as possible to the curb on the right, so as to allow faster-moving vehicles free passage to the left.

Sec. 8. No person having charge of a vehicle shall allow the same to come within ten feet of any vehicle in front of him when approaching and passing over a crossing where a pedestrian is about to cross.

Sec. 9. The driver or person having charge of any vehicle, before turning the corner of any street or turning out or starting from or stopping at the curb line of any street, shall first see that there is sufficient space free from other vehicles so that such turn, stop or start may be safely made, and shall then give a plainly visible or audible signal.

Sec. 10. When a horse-drawn vehicle is backed up to the curb, the horse or horses shall be turned so as to stand as near parallel with the sidewalk as possible and headed in the general direction of travel for the side of the street on which the vehicle is standing.

Sec. 11. Unless in an emergency or to allow another vehicle to cross its path, no vehicle shall stop in any public street or highway of this city except close to the curb line.

Sec. 12. No vehicle shall be allowed to stand within five feet of a fire hydrant.

Sec. 13. In approaching or passing a street railway car which has been stopped to allow passengers to alight or to embark the driver of every motor vehicle shall slow down, and if it be necessary for the safety of the public, he shall bring said vehicle to a full stop.

Sec. 14. No vehicle shall stop with its left side to the curb on High street, between Orange and Market streets, on Main street, between Fayette and Market streets, or on Fore or Market streets.

ARTICLE 3. SIGNALS, NOISES AND SMOKE.

Section 1. Every driver of a vehicle shall, in slowing up or stopping, give a signal to those behind by raising a whip or hand vertically.

Sec. 2. In turning while in motion or in starting to turn from a stand-still, a signal shall be given by the driver of the vehicle about to be turned by raising a whip or hand indicating the direction in which the turn is to be made.

Sec. 3. Ample warning shall be given by voice or uplifted hand before backing, and while backing unceasing vigilance must be exercised by the person driving any vehicle.

Sec. 4. Vehicles must stop so as not to interfere with or prevent the passage of pedestrians at crossings.

Sec. 5. The Police Department shall control all traffic in the streets or highways. All vehicles and cars shall stop and start immediately on signal given by any police officer.

Sec. 6. (Extract from Motor Vehicle Law, section 12). Upon approaching any intersecting way or a curve or corner in a way every person operating a motor vehicle shall slow down and give timely signal with his bell, horn or other device for signalling; provided, that in the thickly-settled parts of a city or town no bell, horn or other device

for signalling shall be sounded so as to make an unreasonable noise, except in the case of fire and police department vehicles; and provided further, that no operator or chauffeur of any motor vehicle shall in any way permit any unreasonable amount of smoke to escape from said motor vehicle, nor shall any operator or chauffeur in any way permit said motor vehicle to make any unnecessary noise, by cutting out the muffler, or otherwise.

ARTICLE 4. RIGHT OF WAY.

Section 1. Police, fire department, United States mail vehicles, ambulances, funeral processions, and emergency repair wagons of public service corporations shall have the right of way in any street and through any procession, and nothing in these rules shall apply to said vehicles.

Sec. 2. A person driving or controlling a vehicle waiting at the curb shall promptly give place to a vehicle about to take on or let off passengers.

ARTICLE 5. PENALTIES FOR VIOLATION.

Section 1. Except as otherwise provided in the Motor Vehicle Law of the state, any person violating any of the provisions herein contained shall be liable to a penalty not to exceed ten dollars for the first offence, or not to exceed twenty dollars for any subsequent offence.

Sec. 2. Complaints against any person violating any of the provisions herein contained may be made at police headquarters or to any police officer.

Sec. 3. All ordinances inconsistent herewith are hereby repealed.

Sec. 4. This ordinance shall take effect upon its passage.

Passed June 9, 1914.

To His Honor, the Mayor, and the Honorable City Council:

Somersworth, N. H., June 9, 1914.

Your committee on ordinances reports and recommends that said ordinance as above made up be passed.

FRED H. BROWN,
ELISHA C. ANDREWS,
Committee on Ordinances.

In Favor of Printing 500 Copies of the City Report.

Resolved: That the Committee on Printing be authorized and hereby are empowered to have five hundred copies of the City Report printed for the fiscal year ending February 28, 1914.

Passed July 7, 1914.

In Favor of Purchasing Booths for the Different Wards of the City for Election Purposes.

Resolved: That the Committee on Public Buildings be and are hereby authorized to purchase booths, and all things necessary pertaining thereto, for the different wards of the city for the coming primaries and fall election, and that the sum be paid from money in the treasury, not otherwise appropriated.

Passed August 4, 1914.

PETITIONS.

Somersworth, N. H., February 3, 1914.

ANNUAL REPORTS
OF
THE SEVERAL DEPARTMENTS
FOR THE
CITY OF SOMERSWORTH
ENDING MARCH 1, 1915

REPORT OF THE CITY SOLICITOR.

To His Honor, the Mayor, and the Members of the City Council:

I herewith submit my report as City Solicitor covering my term of office during the municipal year ending February 28, 1915, from July 7, 1914, to January 18, 1915, when I resigned to become Justice of the Police Court for the District of Somersworth.

No suits have been brought against, or by, the city nor have any been tried, during this period, in which the city was a party, and the cases standing upon the docket of the Superior Court at Dover are in the same condition as shown by the last report of Solicitor Fred H. Brown.

I have settled the claims of Napoleon Labonte for damages done by flooding his premises on the Dover Road, for \$60, and the State Highway Department and the city, acting together, have placed a much-needed drain and receiver, so that the locality will not be flooded again. Also settled claim of Arthur L. Mason for flooding his cellar with sewage from stopped-up drain, No. 52 Green street, for \$25, also the claim of Fred J. Lauzon for \$5.15, for damage to stock in store at No. 48 Orange street, from leak in water-pipe in library building.

I have advised with various officials from time to time as questions have arisen, including the City Council on some claims presented to them for payment.

I wish to express my appreciation of the courtesies

extended me by citizens and officials with whom my duties have brought me in contact.

Respectfully submitted,
SIDNEY F. STEVENS.

Report of the Librarian.

To the Board of Trustees of the Somersworth Public Library,

Gentlemen: The report of the librarian, showing the work of the library for the year ending February 28, 1915, is herewith presented.

Again we come to the close of a year's work. It is

inevitable that there must be much of sameness about each succeeding report, though it is to be hoped that each one shall to some extent mark progress.

The general trend has been shown by the preceding figures, but there are some facts which cannot be designated in numerals.

There has been a slight change in the personnel of the working force, the vacancy caused by Mrs. Alice Fullerton's removal from the city being filled by Mrs. Grace Blaisdell, and by the addition to our force of Miss Lucia Russell.

The Christmas tree for the children who frequent the library has become an institution. This year the tree was an unusually large and handsome one and heavily laden with toys, candies, and ornaments. It was a gorgeous sight for eyes which saw in it their only Christmas tree, and we most heartily thank all the friends who by their kindness and generosity helped in making it the success which it undoubtedly was.

For some months there has hung on the library wall a quaint picture of particular interest to old "Great Falls" residents. It represents the view from the High School building in 1856.

Mr. George Burleigh, of New York, sent this picture to Mr. Fred K. Wentworth, asking him to place it in some public building, and Mr. Wentworth chose the library. Our hearty thanks are due both Mr. Wentworth and Mr. Burleigh.

We also acknowledge the gift of a set of the Gulick Health Series from Mrs. John W. Bates. These books are in use in the public schools and it is well worth while that they should be on our library shelves.

Aside from these few items, the work has gone on smoothly, with nothing out of the ordinary to record.

We have endeavored to continue our uniform

custom of courteous treatment toward one and all of the library patrons.

The new books added through the year have been gladly welcomed, and we think that the public as a whole recognize the fact that as far as our resources permit we try to keep pace with the times.

Again we thank the trustees for the kindness and courtesy of the past year, and assure them of our cordial appreciation.

CITY CLERK'S REPORT.

SOMERSWORTH, N. H., February 27, 1915.

To His Honor, the Mayor, and City Council,

Gentlemen: I herewith submit my report for the fiscal year ending February 28, 1915, as follows:

Miscellaneous licenses,	\$351 00
Dog licenses,	242 00

Total,	\$593 00
Less commission on dog licenses,	21 00

Total due city,	\$572 00

Respectfully submitted,

FRED A. HOULE,
City Clerk.

REPORT OF BOARD OF HEALTH.

SOMERSWORTH, N. H., March 1, 1915.

To His Honor, the Mayor, and City Council,

Gentlemen: Herewith is submitted my report for the municipal year ending February 28, 1915.

CONTAGIOUS DISEASES REPORTED.

Small pox,	0	0
Diphtheria,	3	0
Scarlet fever,	6	0
Typhoid fever,	14	0
Pulmonary consumption,	2	2
Number of births,		154
Number of deaths,		97
Excess of births over deaths,		57

The "Clean Up Week" was a great success, and would recommend same another year.

GARBAGE DEPARTMENT.

I would also recommend some improvement to the garbage department, as same is increasing yearly. The regular collector should have assistance, so as to collect everything to be disposed of during the year, including the garbage from the tenements of the Great Falls Manufacturing Company.

The house canvassing was a much-desired improvement, and as a result a large number of houses were connected with the sewer, and out-buildings disposed of.

Total of flush toilets put in,	129
Of these, the Great Falls Manufacturing Company	
has,	50
Number of out-buildings disposed of,	49

The large amount of sewer connections made by the Great Falls Manufacturing Company was a great improvement, and is much appreciated by all citizens, also by the local board of health. The work is to be kept up until completed.

WATER SUPPLY.

During the year frequent analyses have been made from the city's supply, and the reports received have shown no colon bacilli.

MILK.

Inspections have been made to barns and recommendations also made that were necessary to better conditions, whenever they were found at variance with the standard requirements.

The State Board of Health, during the year, has issued rules and regulations for the production and sale of milk.

Cleanliness is the slogan of the State Board of Health, and the producer will be required to sterilize with steam, or boil in hot water, all utensils used in the production or sale of milk. Barns must be well lighted and ventilated and kept clean; cattle must also be kept clean, and bedding of some description used.

These are the recommendations made by the State Board of Health, and therefore remove the responsibility for the enforcement of its rules and regulations from the local board of health.

In concluding my report, I wish to thank His Honor, the Mayor, city solicitor, and members of the city council, for assistance rendered in the discharge of my

duties. I also wish to extend thanks to the members of the "Women's Civic Improvement Society" for their assistance.

Respectfully submitted,

AMEDEE COTE,
Sanitary Officer.

STREET COMMISSIONER'S REPORT.

SOMERSWORTH, N. H., March 1, 1915.

*To His Honor, the Mayor, and the City Council of the
City of Somersworth,*

Gentlemen: In accordance with the provisions of the city ordinances, I herewith submit my third annual report as street commissioner for the fiscal year ending February 28, 1915.

STREETS.

All streets have been kept clean, and also all highways cleared of stone or other matter liable to impair good travelling, and put in good condition, and where grading was necessary, improvements have been made, and furthermore, we have cut open a new street, which leads from Depot street into Indigo Hill road, which runs through the Great Falls Manufacturing Company's field, known as the "Brick Yard district."

STATE HIGHWAY.

The state highway has been oiled on the "trunk" line, leading from Somersworth to Dover, and also from Somersworth to Rochester.

MACADAM.

We macadamized on Main street, from Franklin street to Summer street, which made a great improvement to that part of the city.

ROADS.

We have graded Maple street with gravel, from Page street to John Haines's brook; also School, Spring, Green, Linden, Emery, and West Green streets; also

the following streets throughout the city, with ashes, namely, Page, Indigo Hill road, and several streets in the "Brick Yard district."

SEWERS.

All the sewers about the city have been cleaned out regularly, when needed, and kept in proper condition to secure good drainage. We have also made good improvements at the corner of the new street and Indigo Hill road, by putting in a new catch basin. We have also laid a new sewer in the "Brick Yard district," on Burke street from Second to Downs street, and also on Downs street to Indigo Hill road; also on Lee street to Indigo Hill road, and on Indigo Hill road, from Downs to Second street.

CURBING.

We have laid 100 feet of new cement curbing, on the easterly side of Emery street, also two drive-ways, with ten-inch pipe, and we have also laid new drive-ways, namely, on Winter street, at Dyer P. Swett's residence; on Grove street, at Benjamin F. Hanson's residence; on Noble street, at Edwin W. Folsom's residence; on Lincoln street, at John Nutter's residence; on High street, at Charles Estes's residence; and on West High street, at Hiram Nash's residence, with Akron pipe.

Concrete walks have been laid on the following streets, namely, on the northeasterly side of High street, from the residence of Norbert del'Etoile to Pearl street; on the easterly side of Pleasant street, from High to Green street; on the westerly side of Pleasant street, from High to West Green streets; on the westerly side of Maple street, from Prospect to Lincoln streets; also re-covering and new crossings on the easterly side of Maple street, from Prospect to Lincoln

streets, and on Green and Washington streets; and also the following sidewalks throughout the city with ashes, namely, on the northerly side of Maple street, the easterly side of Main street, the southerly side of Tremont street, and on the southerly side of Page street.

RECOMMENDATIONS.

I still recommend that the laying of sidewalks be continued, and that such work be thoroughly and permanently done, and would also recommend the repairing of other macadamized streets, and have liberal appropriations made for improving same.

In closing, I desire to thank His Honor, the Mayor, and members of the city council for their kindness and courtesy during the past year.

Respectfully,

GEORGE LETOURNEAU,
Street Commissioner.

AUDITORS' REPORT.

SOMERSWORTH, N. H., June 11, 1915.

To His Honor, the Mayor, and the City Council,

Gentlemen: We hereby certify that we have examined the books and vouchers of the city clerk and find same kept in form prescribed by the ordinances of the city. All payments are properly classified, and comparison with the books of the city treasurer, after allowing for unpaid orders and for orders carried from previous years, shows that the accounts of these two officials agree.

We have also examined the books of the superintendent of water works, of the city messenger, of the tax collector, and of the superintendent of Forest Glade cemetery. All these accounts are correctly kept, and the amounts received by the various departments are properly accounted for.

Respectfully submitted,

FRED K. WENTWORTH,
JOHN B. MORIN,

Auditors.

SIGNALS

One stroke of the bell is the all-out signal.

2-2-2 strokes of the bell is for a brush fire, or a fire seen at a distance, where the department is needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the chief engineer.

GENERAL RULES

Firemen, as well as citizens, should familiarize themselves with the following rules for giving alarms of fire :

1. Never pull a box for a fire seen at a distance.
2. Never pull a box while the alarm bells are ringing, not until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire.
3. To ring in an alarm, break the glass in the key-box and open the outside door with the key. Pull down the brass crank seen inside, till it stops, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in a track lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that someone stays at the box to direct them to the fire.
4. Never pull an alarm for a fire seen at a distance. Never touch a box except to give an alarm of fire. Give an alarm for no cause other than actual fire. Don't give an alarm for a chimney fire.

CEMETERY TRUST FUND

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Honorable School Board of Somersworth:

Gentlemen: I have the honor to submit herewith my first annual report as superintendent of schools of the city of Somersworth, and to this I have attached reports from the supervisors of drawing, needlework, and manual training.

Upon assuming charge of the administrative office of this department I found your schools thoroughly organized, your teachers in general well prepared for their work either by long experience, by professional training, or by both. Your equipment contained no marked deficiencies with the exception of a shortage in number and variety of texts, especially in material for literary and informational reading. This want I have endeavored to supply as far as your limited treasury would permit.

The enrollment in the public schools at the present time is as follows: Grades I, 78; grades II, 55; grades III, 55; grades IV, 75; grades V, 69; grades VI, 64; grades VII, 64; grades VIII, 40; grades IX, 44; ungraded, 10; High School, 67. This makes a total of 621 for all the schools, an increase of 29 for the elementary schools over the average membership of last year and a decrease of six in the secondary school. This gives us for the present year less than 11 per cent. of our pupils enrolled in the High School. Compared with the schools of other cities in this state, we have at the present time a smaller per cent. enrolled in the High School than is shown in the New Hampshire School Report for any other city in the state for the last school year. To be an average for the state we should have a High School membership of 105. This

would seem to indicate that either our people are not as keen for higher education as are the people in general throughout the state, or that we are not offering them secondary courses that are popular with people of their tastes and aspirations. There is no doubt in my mind that the work done in the courses now offered is of an exceptionally high quality. It is especially desirable and even essential that this work should be continued on the high level now attained, but I feel that the time has arrived when it might be well to adopt some of the courses more recently added in other High Schools of this and other states.

I find that you have pursued a conservative policy in the matter of curricula, deviating from the old-line school activities only by the recent introduction of needlework and manual training and a course, commercial in part, in the High School. While I am not an advocate of early specialization in general, yet at the same time I am thoroughly convinced that the same training that is best for a pupil who will probably enjoy eight or ten years of schooling after completing the elementary course, is not practicable for the pupil who will complete only an elementary or even a secondary education. Besides, I do not believe that there is but one royal road to culture, whatever you may interpret that term to mean, and that that road is by a study of the so-called liberal arts. It seems to me that the only criterion we have for determining the curriculum best for any child, or group of children, must come from a careful consideration of the probable future activities of such children. In pursuance of these contentions, I wish to submit for your careful consideration the advisability of completing the commercial course in the High School by the addition of stenography and type-writing and also the adoption of a policy of gradual

equipment and enlarging of our manual training and domestic arts courses.

The distribution of the work of the public schools which is most prevalent in this state and in fact in this country covers a period of eight years for the elementary and four years for the secondary schools. Because this eight and four-year distribution is not entirely satisfactory and has long been regarded by educators as not pedagogically sound, many attempts have been made to modify this plan and there are now in this state at least four such modified plans in force. Of all these plans for the distribution of the elementary and secondary school work, the longest extends over a period of twelve years and the shortest covers the ground in ten. We are at present working under a plan which requires thirteen years of the pupil's time before graduating from the High School. A few years ago the number of grades was cut to eight, but after a trial of three years the ninth grade was again restored. It is quite probable that because of the peculiar school conditions existing in this city it will prove advisable to maintain a provisional nine-year elementary course, but it is manifestly an uneconomic expenditure of time and money to require the more precocious children to spend nine years upon work which is accomplished in other cities in eight, seven, or less years. I am confident that by a slight change in the arrangement of the work in the upper grades a large per cent. of our pupils may be promoted from the eighth grade direct to the High School, while those less well grounded because of absence or other causes, or because they are slower in acquiring, may still have the benefit of another year in the Grammar School. I wish to submit such a plan to you for your consideration.

Early this year I caused the Snellen's test for acute-

ness of vision to be given in the schools. Of 518 pupils subjected to the test 154, or nearly 30 per cent., were found with greater or less abnormalities. The parents of 96 of these pupils were notified by card of our findings and advised to consult a specialist. The response was large enough to be gratifying. Without doubt there are in our schools nearly as large per cent. of pupils of more or less retarded development due to physical defects. The casual observer cannot fail to discover indications of adenoids, diseased tonsils, defective hearing and vision, and defective teeth. The advice of the conscientious teacher, who takes pains to inform the parents of children suffering from any of these defects, is seldom appreciated and more seldom heeded. If this advice came from a reputable physician, it would without doubt be followed generally and much good would result to the children. I therefore suggest that you give consideration to the advisability of adopting the provisions of the Medical Inspection Act of 1913.

In closing I wish to express my appreciation of the confidence placed in me by the board and of the generous support and coöperation of the teachers.

Respectfully submitted,

LOUIS DEWITT RECORD,
Superintendent of Schools.

February 17, 1915.

REPORT OF TEACHER OF MANUAL TRAINING.

To the Superintendent of Schools, and Members of the School Board,

Gentlemen: I hereby submit to you my second annual report for the department of manual training.

There are about ninety-five pupils from the Grammar School taking work in this department, and also the boys of the freshman class of the High School.

The aim of the work this year is to train the pupil in the use of wood-working tools, and to correlate the working of the brain and the hands.

In the grammar grades the pupil starts with the construction of the simple joints and receives a training in the use of the different tools. Later larger projects are undertaken and constructed from plans, such as tabourets, umbrella racks, foot-stools, and many other such articles. In the last two grades work of a more complicated nature is undertaken, which requires an insight in joining.

The work this year has been extended so as to include the boys of the freshman class of the High School. The articles worked out by those pupils are of a more advanced and more complicated nature than in the grades. Some of the articles being made are a lady's writing desk, a library table, and a chair.

The work of this department is being carried on under a serious disadvantage on account of the lack of necessary finishing tools. There is a great need of smoothing planes and backsaws. Those articles are very essential in the manufacture of fine work. There are also some other tools needed, which should be added in the future.

In closing I wish to extend thanks to the superin-

tendent, the members of the school board, and the many teachers, who have been of assistance in the work.

Respectfully submitted,

MICHAEL J. O'MALLEY,
Teacher of Manual Training.

REPORT OF TEACHER OF SEWING.

*To the Superintendent of Schools, and the School
Committee of Somersworth,*

Gentlemen: Permit me to submit the following report of sewing as taught in the Somersworth schools the past year and a half.

There are many people who are of the opinion that sewing is essentially a woman's work, and that girls take to it naturally. Perhaps some do, but as a rule this, like other subjects, must be carefully learned and practiced diligently before proficiency can be attained.

The course of study recognizes the importance of the fundamentals and provides that the children shall be instructed in all the branches of plain sewing before they attempt the work for which the stitches taught have been but the basis.

It is our desire to instruct the children in such a way as to arouse genuine pride in a special piece of work, and to incite them to do something similar in their leisure moments.

The children throughout the city are deeply interested in their work in sewing, and each lesson seems all too short.

The branch of work is so extensive that we all hope more time may soon be devoted to this practical subject.

Respectfully submitted,

LILLIAN M. WEEDEN,
Teacher of Sewing.

REPORT OF TEACHER OF MUSIC.

To the Superintendent of Schools, and the School Committee of Somersworth,

Gentlemen: It is with pleasure that I submit my report as supervisor of music.

Eight and a half years ago I began my work among the people of Somersworth, and it has always been a joy to me, and an inspiration to renewed effort and study.

Educational leaders of today are insisting most strongly that we must not train a child's intellect and leave his emotional nature undeveloped. Unless a child has a love and appreciation of the beautiful, and unless his emotions are trained to high and noble ideals he is poorly equipped for the battle of life.

Song is as natural to a child as speech, and his best vehicle for the expression of his emotions and also for his receiving of impressions from others. How important, then, that he shall sing and hear music that is high in ideal, and pure in thought and feeling.

The growing influence of the popular song—here today, and replaced by a less worthy one tomorrow—is felt in all our work. It lowers the moral standard, and vitiates the taste both in literature and music. It is greatly to be deplored that it is almost impossible for our children to hear good music, while the other is so easy of access.

As the school is almost the only place where many of our children may hear and sing good music, it is of the greatest importance that we give them the best. This I have always tried to do, being careful that the songs should have literary value whenever possible, and that the music should express the beauty of the thought of the text.

I have felt that it is unwise to spend much of our precious time in drilling on theory and technicalities. These may be left for the student of music. A very few facts will enable a child to read music readily. But I feel more and more strongly that our children must express themselves in song individually, and that they must have constant drill in reading music at sight, that they may be able to take part in, or even to enjoy, the music as they advance through the grades. This self-expression of what is beautiful in thought and melody, and the mental discipline which it demands, carried through every grade, by every child, is the ideal toward which we are striving. The nearer we can come to realizing it, the greater results will be attained in music, and the more inspiration will be given to every other study. We hardly begin to realize how much more vivid we may make all our school work when we regard each study as a part of the whole and all interrelated.

To realize this ideal is the very large task of the supervisor, assisted by the regular teachers. Indeed, I think it is the task of the regular teachers, assisted by the supervisor. For without the sympathetic coöperation and hard work of the regular teacher the work of the supervisor counts for nothing. Any success, then, that has been won in the musical development of the children has been largely due to the efforts of the regular teachers, and I am glad to express my appreciation of their cordial support.

We are looking forward with great pleasure to the possession of a Victrola, which will make it possible for our children to hear often many of the works of the great masters.

When Mozart's greatest opera was heard in Vienna it was not appreciated. The frivolous leader of a thoughtless, pleasure-loving people said to the composer, "Your music is divine, but it is no food for the

teeth of my Viennese." Mozart replied, "Then let them chew upon it."

How shall our children love and appreciate what is fine and beautiful if a very large part of what they are privileged to hear is of the opposite character?

May I not bespeak the interest and coöperation of the people of Somersworth in encouraging the children in their work, not only in the occasional public performance, but also in the routine of the daily study which is the real test of its value. May we not have community singing, municipal concerts, a choral union, and glee clubs which will give pleasure and inspiration to every citizen and an impetus to the school work of the very greatest value?

In the regular work in music, it is the child of average ability, and the unmusical child, who receives the most attention. The bright, musical child has to listen to the stumbling efforts of the others, and does not have the opportunity for development which is his right. This is true of all the work in graded schools. So our public performances, our orchestra and glee club give him this opportunity. Most of this work must be done out of school hours, and here again we sorely need the coöperation of the people, to magnify the value of it to the child and to the community, that it may be carried on successfully.

May I thank you, Mr. Superintendent, and members of the school board, for your interest and coöperation in my work.

Respectfully submitted,

MINNIE L. EATON.

Class Ode.

Friends together we are grieving
 As our parting now draws nigh,
 For tonight we all are leaving
 Scenes which we have long held dear.
 Four short years we've strove together,
 Four short years we've worked as one
 But tonight the tie is severed
 As our school work here is done.

Then let "*esse quam videri*"*
 For e'er our watchword be
 And the path through life make cheery;
 S.H.S. farewell to thee!

Let us now think of the teachers
 Who have been so kind and true
 And it is with hearts of sadness
 That we bid our last adieu,
 And when on life's path of duty
 We have firmly placed our feet,
 Let us always hold this friendship
 And, as comrades, always meet.

REPORT OF WATER COMMISSIONERS.

To the Honorable Mayor and City Council:

Gentlemen: In accordance with the city ordinances, your board of water commissioners herewith submit the following annual report for the year ending February 28, 1915.

Following the usual custom, the commissioners met at their office in the city building, June 16, 1914, and organized by electing Frank E. Hobbs, chairman, and Charles F. Crockett, clerk. John Parsons was elected superintendent of water works; James A. Flanagan, engineer; and Charles Michel, assistant engineer at the pumping station.

PUMPING STATION.

The pumping station carries the usual amount of insurance. The pumps are in good working condition, but need painting, which we shall endeavor to have done later in the year. The boilers have been inspected, as usual, and favorable reports received from the Fidelity and Casualty Company. We are using for sterilization, chlorine gas. Many analyses of the water have been made during the year, and it has always been pronounced free from injurious bacteria, and safe for drinking and domestic purposes.

FILTER BED.

The filter bed has had its usual cleaning, and the usual amount of sand has been washed and replaced on the bed.

SERVICE PIPES.

Twelve new services have been laid during the year, making a total of 975 now in use.

METERS.

There have been added twenty-three new meters during the year, making a total of 365 now in use.

Receipts and Expenditures from March 1, 1914, to March 1, 1915.

REPORT OF SUPERINTENDENT.

To the Board of Water Commissioners:

Gentlemen: The following report of the superintendent for the fiscal year ending February 28, 1915, is respectfully submitted.

PUMPING STATION.

The pumps have worked continuously. The boilers have been duly inspected and favorable reports received from the Fidelity and Casualty Company.

Repairs have been made, when necessary, and the pumps are now in good working condition.

STAND PIPE.

A few minor leaks have been repaired during the year on same.

HYDRANTS.

The hydrants have been tested, and repairs made, when necessary.

DISTRIBUTION PIPING.

Leak in 8-inch main, Back street; leak in 8-inch main, Main street; leak in 12-inch main, Market street, joints.

SERVICES.

Twelve new services have been laid during the year, making a total now in use of 975. Repairs have been made to many, owing to leaks, principally goose necks.

We are using for sterilization, chlorine gas. Many analyses of water have been made during the year, and it has always been pronounced free from injurious bacteria, and safe for drinking and domestic purposes.

The usual amount of sand has been washed, and re-

placed on the filter bed, which keeps the bed up to the proper standard.

METERS.

There have been added twenty-three new meters during the year, making the total now in use, 365, classified as follows:
